

- > Now scalable and affordable
- > Powerful analysis and budgeting tools
- The secure option

Make sense of your data and control spend with TyMetrix 360°.

You have many choices when it comes to selecting an e-billing and matter management solution. But it's important to realize that there are important differences among them. Here are just a few of the reasons why TyMetrix 360° is the leading e-billing and matter management solution for so many Fortune 1,500 companies and the 300 largest insurance companies.

Powerful analytic tools.

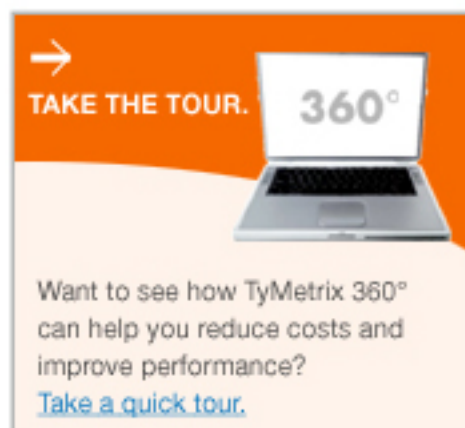

Only TyMetrix 360° offers analytic tools that enable you to translate your legal department's raw numbers into meaningful metrics. You can then improve performance through better financial management, stronger law firm engagement decisions and more effective strategic planning.

Easy-to-use desktop reports.

You can create reports that help you manage outside counsel budgets, gauge law firm performance, identify best practices, and present your findings to your executive team.

Full visibility into budgets and spending.

TyMetrix 360° gives you tighter control of legal spend with tools that go far beyond simple budget tracking. Only TyMetrix combines tools for estimating spend at macro and micro levels

with enforcement tools that monitor adherence from the top down and bottom up.

You'll enjoy greater control of the budget process due to powerful enforcement features including:

- A "budget comparison" tool to identify revisions to budgets
- "Budget-to-actual" information and alerts during invoice review
- Alerts and approval requirements if proposed budgets exceed forecasted amount

You can also gauge and track total spend with flexible and easily configured templates. TyMetrix 360° budget template tools allow you to configure and provide multiple budget templates within the same Client Network.

Remember, TyMetrix 360° can now be implemented in less time than ever before. So find out how you can lower costs and improve outcomes for your department at www.tymetrix360.net, call us at 860-549-8795, or send an e-mail to sales@TyMetrix.com. We'd be happy to provide a full demonstration.
