Powerful analysis for your data

## TyMetrix 360°. More scalable and more affordable than ever.

You may know that TyMetrix 360° is the leading e-billing and matter management solution for legal and insurance claims departments in some of the world's leading companies. It integrates all your department's data in one easy-to-use solution, and helps provide valuable metrics that give you the clarity and visibility you need to reduce costs and improve performance.

But did you know that TyMetrix now offers scalable solutions for smaller companies as well?

#### More scalable solutions.

TyMetrix 360° is now more affordable for companies of every size. You can start with e-billing or matter management and add other features as you need them.

#### More configurable features.

The TyMetrix 360° platform provides a high level of flexibility, allowing you to enhance your department's specific workflow. Only TyMetrix 360° offers simple access controls and workflows that help you manage the business of law.

#### A variety of pricing models.

TyMetrix 360° now offers several pricing models that can be tailored to your budget requirements.

TyMetrix 360° is a proven solution that's hard at work in some of the world's leading corporations.
